the long term. Dunne Meets Sherman. At Governor Dunne's invitation, Judge Sherman met him at the executive mansion this afternoon and was asked if he would take the short term. Their talk was of a confidential character, except for the statement which Judge Sherman made that he had declined to accept the short term. Two hours after this conference Governor Dunne made a statement in which the Demperatic plan for the election of two Democrats to the senate is completely abandoned. The conference will be called to gether again tomorrow morning. If a leak occurs between that time and the hour of convening the joint assembly almost all the Republican leaders say not much time will be left for checkmating whatever they may decide to do.

While Governor Dunne continues to insist tonight that he will consent to Col. Lewis' acceptance of nothing but the long term, many of Colonel Lewis' friends say that there is nothing left for him but the short term and they are advising him to take it. Several of Colonel Lewis' warmest supporters have undertaken to give assurances tonight that he will look with favor upon the short term before morning.

Governor's Argument.

Governor Dunne in his statement on the senatorship points out that at the primary last April, Colonel Lewis received 228,872 votes for United States senator and L. Y. Sherman 178,083.

Since that primary, he says, the United States senate has declared Benator Hopkins place has never.

prospect for a Republican national convention next fall to revise the rules governing the selection of national delegates, and to change the pasis of southern representation at regular Republican conventions was strengthened to day through expressions favoring the proposed national gathering by Senator Root of New York and Senator Crane of Massachusetts. MEXICO CITY, FEB. 19 .- It has developed that the exile of Madero is not certain for the present at least. At the insigaion of the government Madero has been formally held responsible for the death of Colonel Riveroll, which occurred at the palace at the time of Madero's arrest. Confliftcting stories are in circula-

General Victoriano Huerta became rovisional president of Mexico tonight. He took the oath of office at 11:25 o'clock, succeeding Pedro Lascurain.

Prior to the naming of General Huerta, he was appointed a cabinet minister, so that the legal succession to the presidency would be main tained.

Pedro Lascurain took the oath as president interim in his capacity as minister of foreign affairs. The naming of Senor Lascurain by congress at a prolonged session, beginning about six o'clock was merely neidental, and soon was followed the selectionof General Huerta to the presidency. Feb. 19th, will be remembered as the date on which Mexico had within an hour three presidents one of them, Francisco I. After the resignations of Madero and Saurez had been accepted Pedro Lascurain, as minister of foreign affairs, was called by congress to succeed the retiring executive and 26 minutes later he was succeeded by General Huerta, whom he had arpointed minister of the interior thus making regular the legal succession and enabling congress to name Huerta as provisional president.

SHE WAS A CREOLE.

Her Visitor Was Sorry For That Until He Was Enlightened.

It was snowing in the north, but in New Orleans the air was as soft as May, and in a garden brilliant with flowers and sunshine the winter visitors arank after luncheon the famous creole coffee.

"How good this creole coffee is!" said a young man.

"I make It," said the hostess. "I am, you know, a creole.'

The young man looked shocked, hurt, "Well, after all," he said in a low voice, "you can't help that, and I'm sure no sensible person thinks any the worse of

His hostess, who was very beautiful, with hair and eyes like night, laughed merrily.

"Define the word 'creole,' " she said. And the young man replied, "A creole is a descendant of French or Spanish immigrants, with a touch of negro blood in his or her veins."

"And the word means just the opposite!" the woman cried. "A creole is a descendant of French or Spanish immigrants whose veins hold not a drop of negro blood."

"Well, well! I'didn't know that,", "No!" she said. "Nobody from the north does. The word creole is probably the unique word of the dictionary. a word that is universally misunderstood. Why, it is as though you thought up there in the north that white meant black."-New York Tribune.

#### AN EARLY PURE FOOD LAW.

English Bakers Had to Be Careful In the Old Days.

In the time of Edward I. of England. innkeepers were not permitted to make either bread or beer. The former they were obliged by law to buy from the baker and the latter from the brewer. In "Customs of Old England" F. J. Snell declares that if the law defended what was considered the legitimate claim of the baker to a proper livelfhood it was equally solicitous for the welfare of his customers and was most severe upon the baker who sold bread deficient in weight or quality.

For the first offense he was drawn on a hurdle through the principal streets, which would be througed with people and foul with traffic, with the offending loaf suspended from his neck. From a pen and ink sketch of this ceremony it appears that the unhappy tradesman wore neither shoes nor stockings and had his arms strapped to his sides. It seems also that two horses drew the hurdle, which suggests that it rattled along at a pretty lively

For the second offense the baker enjoyed another ride upon the hurdle and then underwent an hour's exposure in the pillory. If he proved so incorrigible as to commit the offense a third time his oven was demolished and he was forbidden to follow his trade.

Queer Egyptian Burial Customs.

The Egyptians have many curious customs in connection with the burial of their dead and the healing of the sick. At every Moslem funeral, for instance, there are hired mourners, varying in number according to the wealth of the deceased. These funerals are al-Sailor, Cissna Park, H. W. Danforth, ways headed by old blind men, carrying long staffs in their hands and wailing loudly. They are followed by the relatives and friends of the deceased, flat carts common to Cairo, filled with women mourners. Mourning, in fact, is quite a profession among the women. Every day you see groups of them squatting on the ground outside the hospital at Cairo, walting to be hired for a funeral.-Wide World Magazine.

Unique Signs In France.

Frederick C. Penfield was walking along a New Jersey road while his chauffeur fixed a broken tire. He noticed a danger sign at the roadside.

"In France." he said. "at the entrance to their towns they have signs that are While Ottawa is making a strong worth seeing, as their historical val-characteristically French and seem to me delightful in spirit. Then below those in larger letters, 'Attention aux enfants' ('Be careful about the children'). And then as you leave the town you see the L. S. Doane returned yesterday back side of a similar sign, which says, 'Merci' ('Thanks')."- New York Post.

"Reg pardon, sir," said the doorman at the Staghorn club, "Haven't you made a mistake?"

Routt College High school lost its ning, 216 West State St.

William McCuriey of Murrayville on the local floor Wednesday night when the team was defeated by

Chandlerville by a score of 21 to 14. A large crowd witnessed the contest and at the close of the first half it looked as though the locals were going to win and they played fast ball during that period. For the locals Alexander secured 1 field goal and 10 foul goals and Groves secured 1 field goal. For the visitors Lewis made 1 field and 15 foul goals, Logue and Clegg 1 field goal each.

statement denouncing the alliance proposed by Governor Dunne. 'I don't believe that after magnificent victory of last fall, the Democrats of Illinois, will look with approval on the bartering of the short term senatorship in order to complete a bi-partisan alliance. The Democratic state organization should and does protest against the unhely terms of a bi-partisan deal whereby a Republican nominee is made the

'Colonel Lewis was the nominee for the full term senatorship under an advisory primary law. But that nomination did not carry with it the right to trade some other office forthe one he sought. Whatever may be said of the primary law it certainly should not be considered as an agreement to deliver certain offices for certain other offices. If that is what it means, we had better return to the days of packed conventions where trades were looked upon as legitimate.

'The Democratic party can stand or bi-partisan deals. It cannot add to the credit of any Democratis memper of the legislature to assist in sending to the senate of the United States a Republican to vote against the policies of his party, just as it is coming into power. It is inexcusable and shameful for 97 Democrats surrender to 75 Republicans the fruits of victory, when they have a state and federal administration to support their claims.

New York, Feb. 19 .- Prominent stock brokers from many of the principal cities of the United States and Canada assembled at the Waldorf-Astoria today to complete the organization of the International Brokers' association. #### "COOKING A PILL."

That Is What Opium Smokers Call "Hitting the Pipe."

The opium smoker in the act of smoking is said to be "cooking a pill." Smokers of tobacco in seeing opium pipes have been misled into the belief that the large bowl of the pipe is filled with opium when really the "pill" is simply pasted over a tiny opening in the cover of the bowl. Heating of the from holding primary elections to bowl produces dense fumes, which are drawn through the bowl and the stem of the pipe into the smoker's mouth.

Neither does one pipe of oplum produce stupor. A "pill" dazes only even an inexperienced smoker as a large drink would effect a person unused to alcohol. The opium users who have been pictured stretched on bunks of opium dens in utter stupor have been saturated with the drug.

Reclining on a bed, the smoker places the layout within easy reach and lights the lamp. Peanut oil, burning slowly and without evil odors or fumes, is used exclusively. The smoker is then ready to prepare his "pill."

The yen-hok, or dipper, a long, neeopium receptacle and turned slowly in the black and sticky substance until a small quantity of opium adheres to the point. It is then placed over the flame of the lamp, and, turning the dipper,

the smoker rolls and cooks the "pill"

until it is ready for the pipe. The tiny speck is then thrust into the opening of the bowl, which, held above the lamp, slowly begins to produce opium fumes, which are drawn in by the smoker through the stem of his pipe. The "pill" lasts only from thirty to forty seconds, and to enjoy another smoke the same preparations have to be repeated. - New York Tribune.

It is a notorious fact that until the government stepped in a short time ago that the price of butter in Illinois was controlled from Elgin. I am a farmer myself and have an interest in some land in Indiana which was inherited from my father. Two years ago d sent a car of cattle there to be fed. They were not handled in such a way that we made any money and I remember we sold them at five cents a pound. Some months later I stepped into the butcher shop in the town near that farm to buy some dried beef and it cost me just 39c a pound. You and I know that there is something wrong with the meat business of this country and that a comparatively few men control the commissary of the country. "When a railroad takes months

Mr. Myers then explained to some extent what the co-operative Journal is and what it is trying to do and made it clear that the Journal is playing a very important part of the ignorant work that the Grain Dealers' association is doing.

Mr. Adkins Talks on Trackage. President Wallbaum announced that Hon. Charles V. Miles of Peoria who was to discuss "The Liability Law" would not be present until Friday and that Hon. Frank H. At a recent session of the general assembly he said that the railroad and warehouse commission of Iliinois was given greater authority than any similar body in the country and in very few cases do the roads resist putting in tracks for elevators for they know that in the end this ruling will be made. He said further that he did not believe it was now the policy of railroads to assume any attitude hostile to the public.

Secretary McCreery said that while there was really no danger of elevator companies putting up buildings and finding themselves unable to get tracks that it had been suggested that a bill be prepared for presentation to the legislature making it obligatory upon railroads to put in a track when any company would give bond that an elevator would be built.

Secretary McCreery stated as a to look into the matter that the some steps should be taken looking toward the ultimate ownership or leasing of elevators in terminal centers like Chicago, Peoria, St. Louis

and Decatur. He said much could be saved to farmers in this way. As it is if a car of grain goes to Chicago and is a little off in condition the price is cut down two cents a bushel. If this grain could be sent to an elevator in which the owner was interested the grain could be dried and cleaned up and the probable loss would be a cent or less per bushel. Agitation of this subject has been started in other states. As a matter of fact there is not a modern elevator in Chicago and insurance rates are consequently high. A new modern fire proof elevator would mean a big saving to farm-

2 10 Too Many Commissions. Joseph Henebry of Plainfield pursued the question of terminal elevators He said that modern elevators in Chicago would mean a saving of \$250,000 annually in insurance alone and that this sum was big enough to pay the cost of operation I do not want you to think that I of the elevators. Further he said am in pessimistic frame of mind for that owners of elevators in Chicago now store their own grain along with the grain of others and that this is contrary to law. According to his figures it would cost a million dollars to put in modern fire proof elevators in Chicago and he said that the first year's saving would pay for them The construction of such elevators would mean the saving of millions to farmers of the middle west. He said that there are too many commissions paid between the producer and the consumer and that when some of these middle men are eliminated that farmers will get bet-Suggests Buying Elevator.

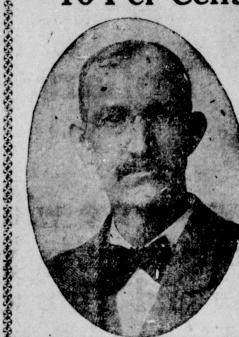

J. A. Grotevant of Ocoya continued the discussion of the question of terminal elevators. He said among other things:

"The farmers' co-operative elevators will within a few years become much more of a factor in marketing and handling of grain. The farmers' co-operative ideas are not commencing to be realized when they merely consign their grain to big firms in large markets such as Chicago, Minneapolis and St. Louis, because then the grain falls into the hands of manipulators who undoubtedly realize much from it. I believe that he farmers' movement will receive benefit when the farmers market their grain direct to the last buyers in consuming centers, in car lots for ooth domestic and export use.

'My proposition is to incorporate, buy out a large elevator which is now in operation and which can be bought for shares of stock instead o money, and to sell the balance of the shares to farmers' elevators who will be guaranteed a dividend of per cent on their investment. At present time there are profits averaging from 2 to 21/2 cents per bushel made by commission and shipping

HAS ALEXANDER FOUND THE SAME?

Answer is Found in the Straightforward Statement of an Alexander Resident.

We have been reading week after wek in the local press of Jacksonville citizens who have been rid of distressing kidney and bladder troubles by Doan's Kidney Pills, and we have often wondered whether the same high opinion of this medicine is to be found in our neighboring towns. This frank and earnest statement by a well known and respected resident of Alexander will set this

doubt at rest. John William Aulabaugh, farmer, Alexander, Ill, says: "About two years ago I took several bottles of Doan's Kidney Pills and will say that they did me more good than all the doctors I had experimented with. I have been bothered very little with my back since I used Doan's Kidney Pills.'

STUDIES IN THE LIFE OF CHRIST Special attention is called to a series of ten talks on the Life of Christ to be given by Miss Miller. These studies are designed to meet the need of the home and Sunday school workers but in their attention to Jewish thought and society they will appeal strongly to all thoughtful students of history and

of religion. All town women will be most cordially welcomed. The first session comes at four o'clock Thursday, February 20. The Woman's college is thought to be a convenient place of the meeting.

When Burton Holmes recently gave his celebrated travelogue on 'Panama" at Orchestra hall, Chicago, he was seriously interrupted by continual coughing of the audience. No one annoys willingly and if people with coughs, colds, hoarseness and tickling in throat would use Foley's Honey and Tar Compound, they could quickly cure their coughs and colds and avoid this annoyance. THE "DIVINE PATTI" IS 70. London, Feb. 19 .- Adelina Patti whose fame as a singer has probably never been equalled in the history of the world, was showered with spent Saturday night and Sunday congratulations today on the occasion of her 70th birthday anniversary. The once incomparable song bird, who is know in private life as Baroness Cederstrom, looks as youthful as many women of 50 years. Having partaken of chocolate, the brigands posted themselves behind some rocks, and I looked on. Soon the diligence was seen approaching. The brigands emerged, the coachman stopped, the passengers were requested to descend and were politely eased of their money.

"The passengers then took their places again in the coach, and it drove off, while the brigands courteously bowed to them. So honest were they in their peculiar way that they wished me to take my share in the spoil, but this, of course, my standard of morality being different from theirs, I declined, and I wished them goodby.

"Riding on to Peucla I dined at a table d'hote that evening with the despoiled travelers and was greatly amused to hear them recount the valorous manner in which they had defended themselves and how they at last had to succumb to numbers.

#### QUEER BURIAL SERVICE.

How Adaman Islanders Protect Their Dead From Evil Spirits.

Strange is the burial service among the Adaman islanders. It is the custom of the islanders to drop the bodies of their parents into the sea at the end of ropes and leave them there until nothing remains but the bones, which they then gather and hang from the roofs of their buts.

It is a common custom for a relative to sit by the hour and watch the bones of some relative. This is the way they have of showing their love and respect.

The bodies are treated in this fashion so that the evil spirits cannot tease and pinch them. All that is left are the dried bones, and these are placed high so that if the evil spirits wander into the huts they will have a hard time to find them. #### Whale Sharks,

While whales are the largest of marine animals, yet certain fish grow to almost as gigantic size. The largest of true fishes are found among the sharks and the largest of these formidable fishes are the whale sharks. The nose is very broad and blunt and the mouth, although very wide, is armed only with minute teeth. #### FOOTBALL MEN TO GET SWEATERS

ILLINOIS COLLEGE ATHLETES TO BE RECIPIENTS.

Presentation Will Take Place This Morning at Regular Chapel Exercises-Basketball - Team Plays Shurtleff Saturday.

This morning at the regular chapel hour, 9:50 at Illinois College, the members of the football team will be presented sweaters. They are of Yale blue with V neck, and white collar bands. On the left sleeve are white stripes, one for each year of service. Aside from the men who participated in the game Coach Harmon will be given a sweater by the members of the team as an appreciation of his services to them and Manager Viggo Jensen will also be give one. The members of the team

Capt. Howard Ross, Capt-elect Ernest Alford, Nile Jaccard, Robbins Russel, George Tandy, Basil Sorrells, Paul Darragh, Carl Lukeman, Floyd Holmes, John Karch, Fred Stewart Harry McLaughlin, Warren Pierce.

The sweaters were ordered at the close of the sason, a special order having been sent in, but the mill was so rushed that they could not be sent

The sweaters have come through the gifts of friends, who have had a kindly interest in athletics. E. H. Fulton of St. Louis contributed five and the following one a piece, Dr. Carl E. Black, Julius Strawn, Thomas Worthington, Robert Hockenhull, Ralph I. Dunlap, Viggo Jensen, E. P. Kirby, Walter Bellatti, Pres. C. H. Rammelkamp and Judge E. P. Brockhouse.

Only one member of the team goes out by graduation this year, Capt. Howard Ross. He has been one of the concientious workers for athletics on the "Hill" and his services as Captain of the team have been of a high order. The roord made by the team last year was splendid, Coach Harmon having worked out an offensive and defensive squad that showed its real strength in the fast game Tranksgiving day when Lincoln college was taken into camp. It is believed that most of the old men will be back again next fall and from present indications Illinois hollege will witness one of the greatest years in football in her history. The music under the direction of Rev. J. A. Biddle proved to be a very popular part of the service.

Rev. Mr. Biddle delivered the revival sermon last night, giving a somewhat unique but splendid discourse on different kinds of religion such as intermittent, rheumatic, spasmodic, etc. Several came forward for prayer, many hands were lifted and at the close a man and his wife united with the church. The interest is constantly increasing. Services will be held this afternoon at 2:30 o'clock and this evening at 7 and 7:30 o'clock.
